
Climate Change Guaranteed

November 3, 2012
8:30 am to 4:00 pm
Romberg Tiburon Center

Theme: Adaptations of organisms and communities to climate change

Directions

Take Highway 101 to the Tiburon/East Blithedale exit. Go East on Tiburon Boulevard and continue on this road to Trestle Glen Boulevard (1.9 miles). Turn LEFT on Trestle Glen Boulevard and follow it to its end (0.6 miles), where it meets Paradise Drive. Turn RIGHT on Paradise Drive and follow it 2.5 miles to the FIRST entrance to the Romberg Tiburon Center, which will be on your left through a large gate (3152 Paradise Drive). Park in any available spot. Follow the signs to the Bay Conference Center.
If you get lost, call Sarah at 415-407-4869.

Agenda

8:30 – 9:00 Registration and Breakfast: Bay Conference Center, Romberg Tiburon Center

Welcome: Agenda, Objectives Review, Introductions

Scientist Speaker – Brian Cheng, UC Davis

Title: “Drill Baby Drill! Climate change and the fate of Olympia oysters”

Scientist Speaker – Dr. Anne Todgham, San Francisco State University

Title: "Field notes from a physiologist: costs and consequences of growing up in a changing world"

Three New Climate Lessons: Feedback Needed!

12:00 – 12:45 Organic Lunch

Scientist Speaker – Dr. Lisa Schile, UC Berkeley

Title: “Tidal wetland vegetation in the San Francisco Bay Estuary: modeling plant distribution with sea-level rise”

King Tides – an opportunity for student engagement with sea level rise

Planning for Climate Change in Your Classroom

3:15 – 4:00 Industrial and Living Shorelines, a Tour of Romberg Tiburon Center’s shoreline with hands-on introduction to “Living Shorelines”
